GETHA only the best from Mother Nature

Since 1969, the company has carved a niche market in the beddings innovation and manufacturing of quality mattresses.

Locally and internationally, the company is renowned for decades of product innovation utilising unsurpassed natural resources and the latest in bedding technology.

Our products are sold throughout Malaysia and overseas, including Australia, Japan, Korea, Hong Kong, Taiwan, New Zealand, Brunei, Saudi Arabia, Spain, Singapore, New Caledonia, Maldives, Thailand, China, Syria and many other countries, with expansion plans to America and throughout Europe.

GETHÁ
Since 1969

Our corporate headquarters, a synergy of strengths

The company is located at its own property and occupies a land area of 10,000 square meters. Now, GETHA is one of the leading latex bedding manufacturers in Malaysia.

The company now employs more than 100 employees who are all working in the manufacturing plant that covers some 70,000 square feet area. More than one quarter of the company's staff has been in its employment for 10 to 20 years. The company maintains a good and close working relationship with its employees. Together we are a strong group of individuals merged into one integrated body that have the foresight, vision and ability that have led to the company's progressive growth and strong reputation in the marketplace.

Over the years, our workforce has enabled the company to chart outstanding achievements with the combined industry knowledge of every area of mattress manufacturing to sales and marketing.

Our mission and vision

We strive to create an:

- International brand (GETHA)
- International quality products
- International management system

The company's vision and mission statement is to promote and create awareness of its local brand "Getha" to be an internationally recognised global brand for top quality products with the top quality management.

World-Class production standards

The company manufactures its product with the Dunlop technology process with latest European automatic foaming machine from Germany. All products are manufactured using 100% pure natural, high quality latex.

LATEX MALAYSIA'S NATIONAL TREASURE

Malaysian latex is world renowned for
its excellent quality.

It embodies assurance for comfort and
trust for high performance in latex
products. This well known fact
enhances our belief in bringing you the
best from Mother Nature, a gift of our
home land and an experience for
your pure enjoyment.

CHARACTERISTICS OF NATURAL LATEX

Clean and Safe

Before each mattress is given all the finishing touches, it has to be pre-washed through a series of water sprays and squeeze rolls. The removal, by washing of certain residual substances improves the quality and hygiene of the product. Only the highest quality mattresses go through this complicated process.

All Getha products pass through this stringent quality control before delivery to your doorstep.

Pure and Simple

You can be rest assured that all Getha products are made from 100% natural latex as certified by the ECO standard test. Even the slightest addition of a substitute in the form of petrochemical component would surface in the ECO test.

Environmentally friendly

All Getha products are environmentally friendly and biodegradable because CFC is not used in the production process. Due to its open-cell structure, unique only to pure natural latex, Getha products are breathable and resistant to fungus and mildew.

High degree of heat dispersion

Bodily heat is easily dispersed while sleeping on Getha mattresses. This is because the structure of latex cells is open and interconnected, unlike the conventional foam properties.

Support and Comfort

No other material can match natural latex in giving your body the ideal pressure relief and correct postural alignment. Thanks to natural latex's high resilience and elasticity, you will have both support and comfort.

Excellent ventilation

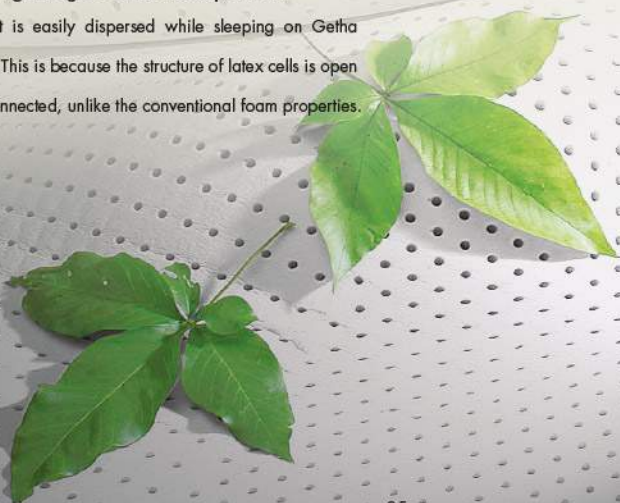

Getha latex block is designed with honeycomb-like ventilation holes to ensure proper flow of air while you sleep. This obviously helps your body to breathe easily, thus reducing motion disturbance. A good ventilating mattress not only provides you relaxing sleep, but it will also help prevent allergies.

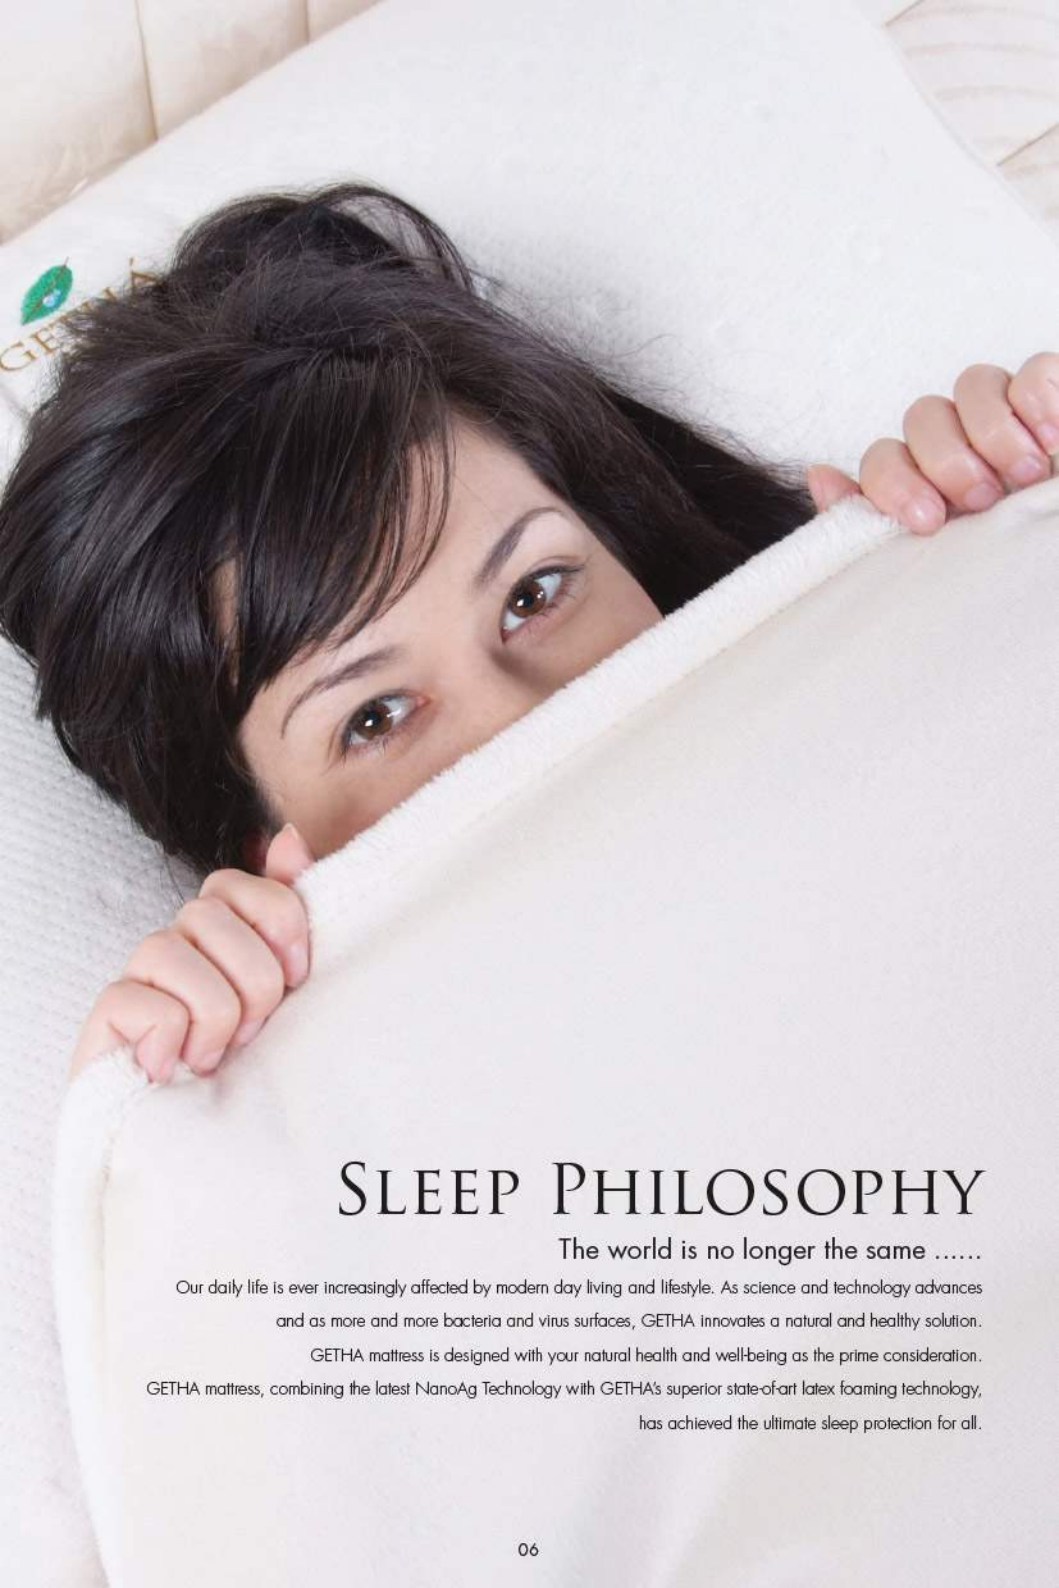

No sleep disturbance

As each point of the latex surface reacts to weight and pressure independently, you and your partner will experience restful slumber every night.

Durable and long lasting

Comfort and support remain consistent throughout all your years of sleeping on a Getha mattress. Latex is the most naturally durable cushioning material available.

SLEEP PHILOSOPHY

The world is no longer the same

Our daily life is ever increasingly affected by modern day living and lifestyle. As science and technology advances and as more and more bacteria and virus surfaces, GETHA innovates a natural and healthy solution.

GETHA mattress is designed with your natural health and well-being as the prime consideration. GETHA mattress, combining the latest NanoAg Technology with GETHA's superior state-of-art latex foaming technology, has achieved the ultimate sleep protection for all.

GETHÁ

Since 1969

Our Promise

Decades of product innovation utilizing unsurpassed natural resources
and the latest in bedding technology, our mattresses are uniquely
created for your comfort and health.

ROUND BED

The luxurious feel of our famed Round Bed is a contemporary compliment to your sleep sanctuary. This round designer bedframe which is upholstered with high quality fabric is superbly matched with GETHA's 100% Natural Latex Mattress and six designer cushions. Your bedroom deserves this comfort centerpiece for your restful daily slumber.

ROUND BED

Designed for only the ultimate comfort, this complete bed set is ergonomically longer, thicker, and higher than conventional beds. Due to its increased elevation, the Dream Kingdom Bed Set comes together with two bed stools for you to reach and indulge in a luxury sleep. This luxury is enjoyed by only the selected few. A unique headboard luxuriously crafted with 24k gold-plated studs adds a classy touch to this masterpiece.

DREAM KINGDOM

FINE BEDDING

BE THE DISCERNING FEW TO OWN THE DREAM KINGDOM

Each and every Dream Kingdom mattress is made from 100% finest and natural material. Added with passion to impress and satisfy. All our team members are skillfully trained with thorough dedication to excel in workmanship down to the last detail. It is our belief in job pride and stringent quality control for every single handling of the products that spurs us ahead when the world has changed and is no longer the same.

Pamper yourself today with the Dream Kingdom Bed Set. Your body deserves only the best!

Headboard: **Togetha H3** with removable zip cover

Getha's Inner Green 360° series of mattresses are made of high quality natural latex of superior resilience.

The ability of natural latex to gently support and conform to your body alleviates pressure points and dramatically reduces tossing and turning. As latex is breathable, the interconnecting cell structure of latex provides a natural ventilation system throughout the mattress. This allows heat and body moisture to dissipate and thus ensures a clean and healthy night's sleep.

Inner Green 360° Firm

Headboard: **Togetha V3** with removable zip cover

Back-Care Supporter

A clever and resourceful harmonious combination of natural latex with natural fibre and CFC free polyurethane foam provide extra firm support. An excellent value in choice provides good quality bedding at a great value. Unique multi-layer system structure promises a level of comfort that is of an unbelievable bargain.

Inner Green 360° Soft

Headboard: **Togetha H3** with removable zip cover

Choice of Relaxing Comfort

Inner Green Soft Mattresses provides a range of superior relaxing comfort plus a high level of optimum support. Natural latex's high resilience and elasticity provides ideal pressure relief and correct postural alignment.

OXFORD

A D J U S T A B L E B E D

The Oxford Adjustable bed is a smart bed, designed for lifestyle use. The contemporary bedframe encapsulates hi-performance pocketed spring flat base, covered with high density grade foam box and heavy-duty hinge. Durability and function ability is guaranteed by the German motor employed.

OXFORD

A D J U S T A B L E B E D

For a trendy outlook, upholstered fabric material is used to present a touch of modern yet edgy feel. The hand-held remote adjusts various sleeping positions according to your needs. The adjustability of the Oxford Bed offers positional comfort, making sleep more comfortable. Furthermore, the lifestyle feature of this bed makes it suitable for reading or watching TV on bed!

Getha paired this smart bed with our 100% Natural Latex Mattress that uses nano silver ASP knot fabric and quilt.

6' Oxford Adjustable Bed

Latex Mattress Sizes:

- 15cm Latex Mattress
- 10cm Latex Mattress

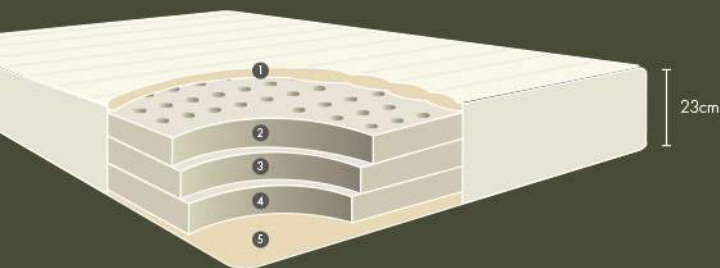

Nature First 20 mattress is made of high quality natural latex of superior resilience.

As latex is breathable, the interconnecting cell structure of latex provides a natural ventilation system throughout the mattress. This allows heat and body moisture to dissipate, and thus ensures a clean and healthy night's sleep.

Togetha

ORGANIC & COTTON

After over four decades of continuous innovation, we are proud to introduce the new Togetha Organic Cotton series. Our Togetha series combines the best in technology and precious natural resources, for a truly cleaner and healthier sleep solution. Our products are now Oeko Tex certified by a testing laboratory in Switzerland, which certifies products meeting its exacting standards. In Europe, Oeko Tex means clean and safe. Products that are Oeko Tex certified do not contain harmful chemicals. You will discover that our Togetha Series is the best choice for a healthy night's sleep. Choose from our variety of comfort levels for the perfect bed for yourself.

TOGETHA ORGANIC COTTON 100

Make your bedroom a safe and relaxing place. Breathe easier knowing your bed fabric is made from organic cotton. Organically-grown cotton is processed without the use of chemical fillers, finishes, solvents and toxic dyes that are typical of most modern fabrics. Our bodies are constantly fighting the toxins found in the products around us. With organic cotton bedding, you can help to create environments in your home that allow your body's defense systems a chance to recuperate. This makes organically-grown cotton ideal for those seeking healthier choices and a healthier sleeping oasis.

TOGETHA 100

Organic Cotton

Our flagship model of the Togetha Organic Cotton series, Togetha 100 is the prime choice for the discerning. This natural Latex Euro Pillowtop mattress design combines the ultimate in luxury fabric with top quality natural latex content to redefine perfection in indulgence. The state-of-the-art fabric design is a fusion in technology with nano silver, organic cotton and anti-static protection incorporated to provide the perfect characteristics that is unrivalled. Sleep in total relaxation with the all-latex Togetha Organic Cotton 100, offering a natural and healthy sleep solution.

Our promise

Decades of product innovation utilizing
unsurpassed natural resources
and the latest in bedding technology,
our pillows are uniquely created
for your comfort and health.

GETHA *Natural Latex Pillow*

Using the Dunlop manufacturing process, the foremost benefit of Getha 100% natural latex pillow is its consistent support throughout your sleep. The pillow holds its shape, thus enhancing better comfort, and does not require fluffing to puff it back to shape. The specially designed Getha pin-hole pillow has a unique air reservoir storage system in the mid-section, hence providing complete fresh air circulation and ventilation always. Getha pillows promote a healthy and restful sleep in comfort.

RESTORATIVE SLEEP FOR A HEALTHIER LIFE

Sleep is vital because it prepares our body and mind for optimal performance the following day. It is a known fact that a deep and relaxing slumber is what truly restores your body and mind and not the number of hours you sleep. During sleep your body repairs itself and revitalizes organs and muscles. Sleep is important for proper functioning of the immune system and the nervous system.

The right pillow is the key to quality sleep.

A black and white photograph of an elderly man with a white beard and glasses, wearing a light-colored button-down shirt. He is sitting on a mattress, leaning against a large, rough-textured log. A name tag on his shirt reads 'GETHA'. The background is a simple indoor setting with a white wall and a window.

Mr David Davies

*Only The Best From
Mother Nature.*

Superior in essence, only creamy, clean natural mattress provide you with total support for ideal pressure relief and proper postural alignment. It is truly a perfect luxurious gift from nature.

Junior Pillow Series

3D Junior Pillow

Small sized pillow suitable for ages 4 years to 12 years. Enhanced support designed for neck and shoulder. Each end provides different sleeping height for suitable comfort.

W48 x D37 x H11cm

Oops Pillow

Oops Pillow is anti-bacterial and non-allergenic, making it suitable for all ages. The Natural Latex used is manufactured using the Talalay process, which allows the pillow to be ultra-plush. This provides ultimate comfort and support for a good night's rest.

W54 x D39 x H14 cm

Smart Kids Pillow

This pillow made from 100% natural latex provides the best support for little one's growth and development.
